

## **Judge 4**

### **Stéphane Dossetti, Vice-President of Evidence (Nice, France)**

Stéphane is 44 years old and lives in Marseille. He started his fetish life at an early stage, when he was a teenager and still a straight man. He had a particular attraction for boots and he discovered somewhat later the joy for wearing leather and turned it into a passion for fetishism.

In 2013, Stéphane was elected Mister Leather PACA (Provence-Alpes-Cote d'Azur) and competed for the title of Mister Leather France.

Not winning the title did not deter him from pursuing his goal of developing a leather and fetish scene in France and investing his energy for the community. He organised fetish events in France and took part in the creation of two community-based organisations : Exultaric in Lille and Evidence in Nice, respectively in 2014 and 2015.

Today Stéphane is the Vice-President of Evidence and together with Roberto, Manu and Aurélien, his family of heart, he promotes the leather and fetish scene not only in France but also internationally, taking part to privileged moments of friendship and fraternity in our community.

With the team of Evidence, Stéphane contributed to the creation of a friendly multi-fetish event in Nice (Nice so Fétiche) which perfectly reflects his view of what fetishism should be.

He takes this opportunity to invite you all to the next edition in November 2019.
