Bart Verrecas, Mister Leather Belgium 2018

Bart Verrecas is Mister Leather Belgium 2018. He competed at Antwerp Leather & Fetish pride in 2018, representing the Belgian leather community throughout his year. His successor will be elected during this edition.

As an engineer, he is working for a large international company and travels around the world where he helps engineers making silent cars. Already in his early 20s, Bart was active in the gay scene and president of the Leuven gay student organization.

Already when being teenager, he was attracted and intrigued by leather and bikers. But it was only at the start of his 30s that he set his first steps into the leather community. As Mister Leather Belgium 2018, he was very active. He traveled across Europe to support different fetish events, with a special attention for smaller clubs that more strongly need support, including the club in St-Petersburg in support of the election of the first Mister Leather Russia.

His experience proves how important it is to unite the leather and fetish community, and help new people to take their first steps in the fetish community. He started to successfully organize the Antwerp and Brussels Fetish socials. There will be two of these socials during the leather pride. During his year, he also become role model of Sensoa, the local organization to support safe sex. Part of his contribution was to fight against stigma on aids and also to make people aware of the different means of HIV prevention today.

Last but not least, he also introduced the Mister Leather Belgium shower gel in support of Rainbow Railroad, an organization that helps LGBT to escape from prosecution. This leather pride will be your last chance to get a bottle of the Mister Leather Belgium shower gel! First in, first serve!
